Follow the steps below to register for the online course.
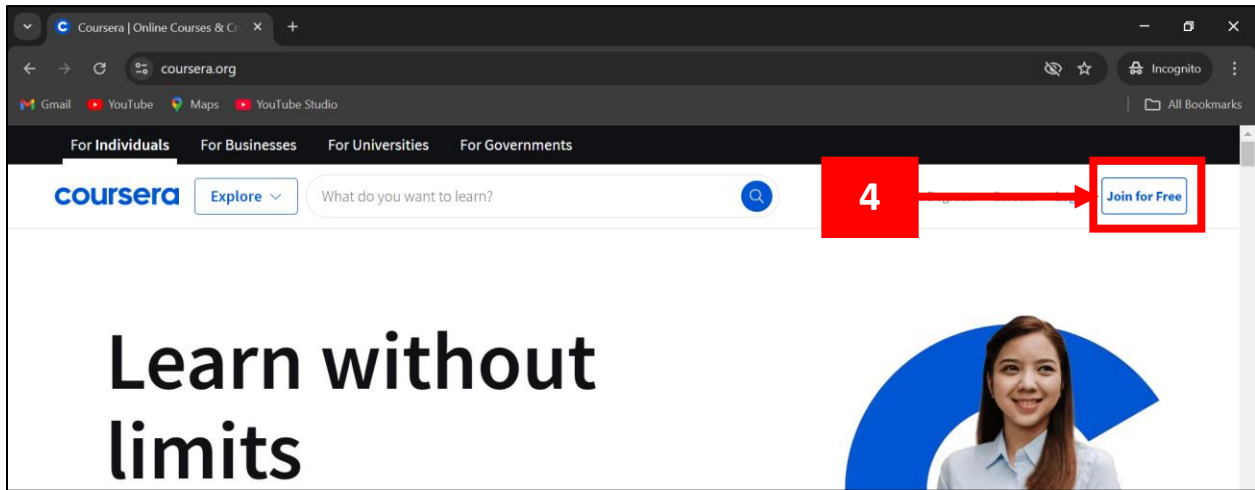

1. Do a google search of **coursera**

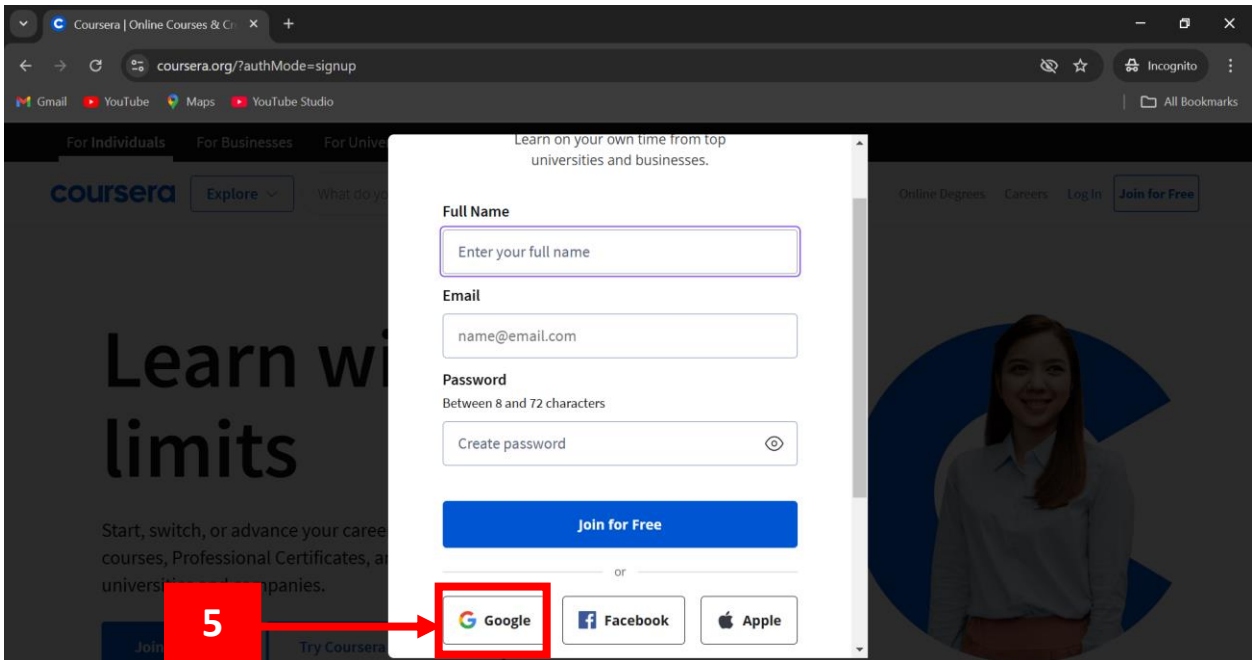

2. Click on the link to as shown below to access the **coursera** website.
3. Alternatively, simple click on the link https://www.coursera.org/ to access the website.
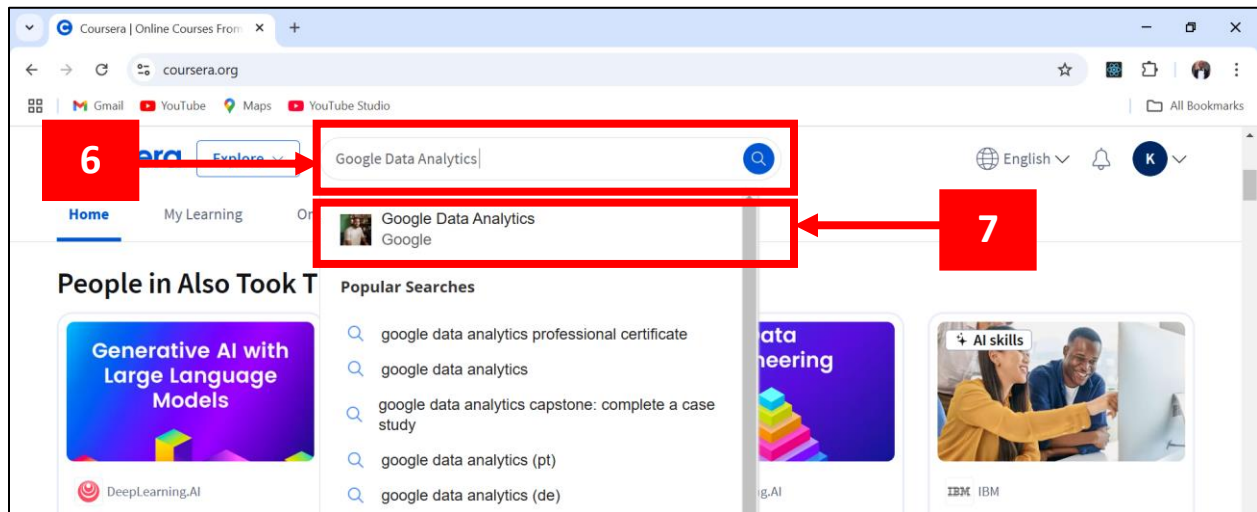

4. Click on the Join for Free button to start the registration process.

5. Simple use the **Google** option for the registration. You may decide otherwise but using the Google option makes the process simple.
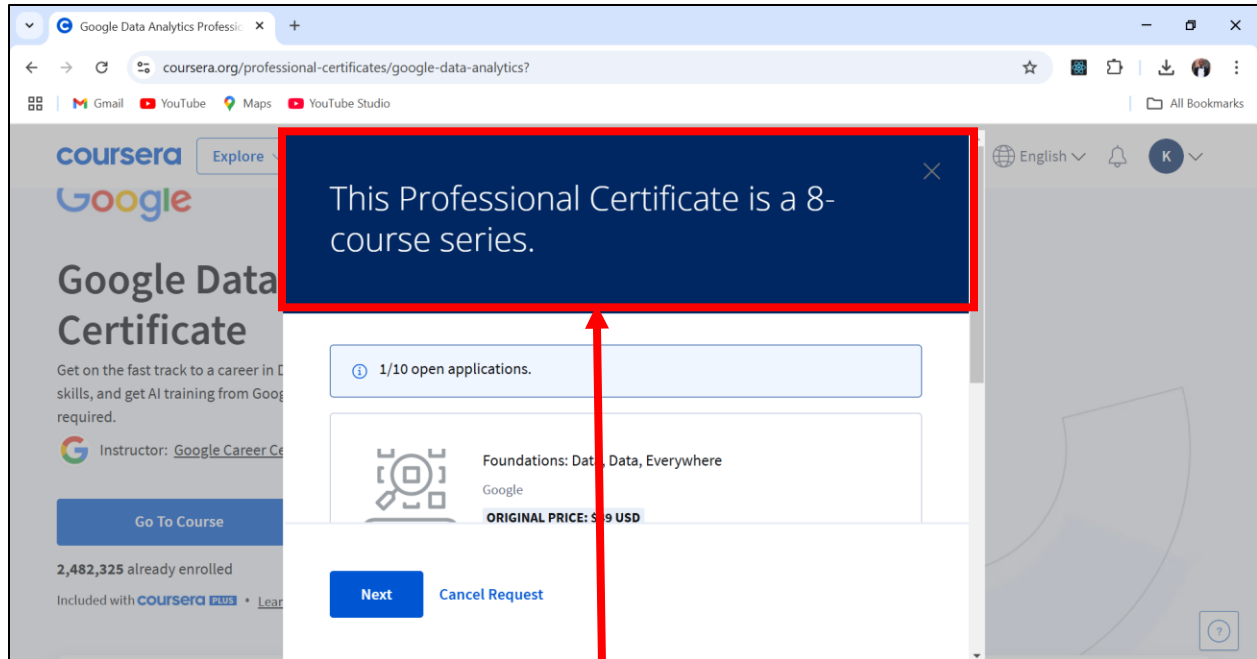

6. Search for **Google Data Analytics**
7. Click on the first option as shown.

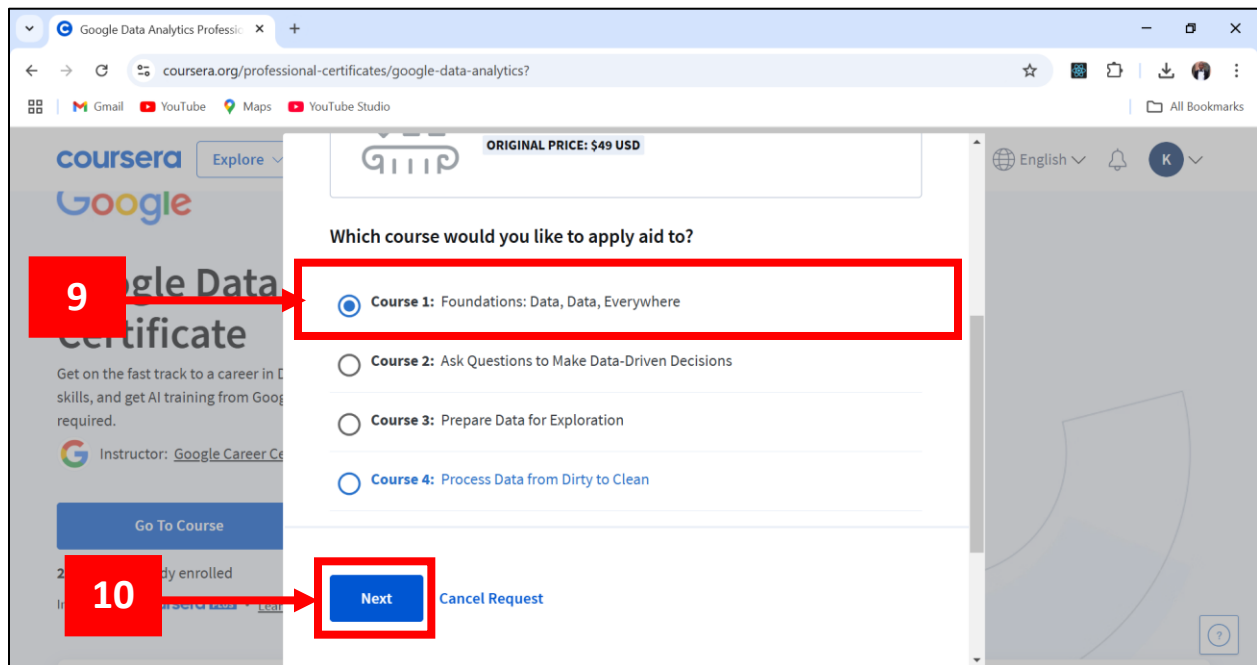

8. Click on the **Financial aid available** option.

For the avoidance of ambiguity, the financial aid must be applied for all the modules. So this process must be repeated for all the other modules for this course.

Take note that the entire course is broken down into 8 modules. So, this process must be repeated 8 times for each module.
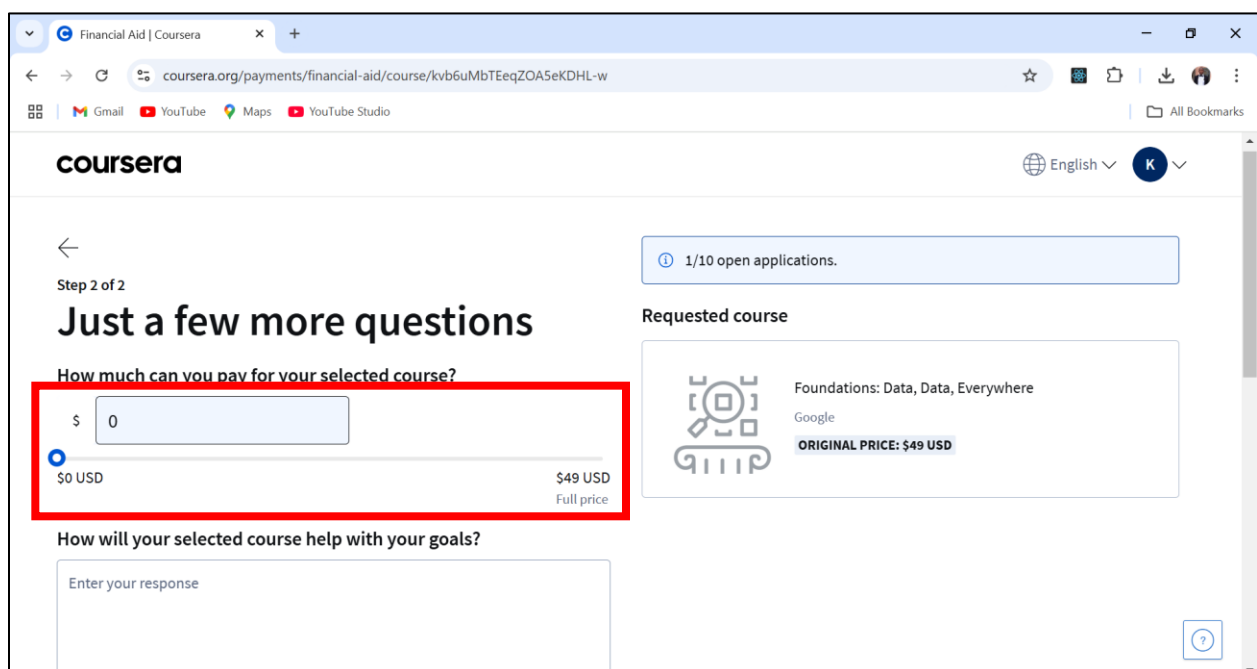

9. Select the **Course 1: Foundation: Data, Data, Everywhere**
10. Click on the **Next** button

On the next two sections of the process, you will be required to write a short essay on why you should be granted the fee waiver. Write a compelling essay; in your essay, indicate you are a student pursuing a degree in IT. You have chosen a Data Analytics Specialization in your program and the Google Data Analytics program will go a long way to help you. You can also write about your career ambitions and how this online course will help you.

Make sure push the slider to zero.

After this process is completed 8 times for each module. You will receive an email to confirm your application.

After two weeks, when an approval is granted, you will be able to access the course for free.
